and Diabetes

# Paediatric DKA Calculator

A national integrated care pathway (ICP) for the management of children and young people with diabetic ketoacidosis (DKA) has been created based on new guidelines that were published by BSPED in January 2020.

To reduce the risk of calculation errors, it is recommended that you generate a copy of the ICP with pre-filled values specific to your patient by using the Paediatric DKA Calculator. Click the link below to start:

**[www.dka-calculator.co.uk](http://www.dka-calculator.co.uk)**

In the unlikely event that you encounter problems accessing the DKA Calculator, you can download a blank copy of the ICP to fill in manually. Click the link below to access:

[www.dka-calculator.co.uk/DKA-ICP-2020.pdf](http://www.dka-calculator.co.uk/DKA-ICP-2020.pdf)

Alternative download link from BSPED:

[www.bsped.org.uk/clinical-resources/guidelines/](http://www.bsped.org.uk/clinical-resources/guidelines/)

(then select DKA Integrated Care Pathway)

The guideline on which the ICP is based can be downloaded from the BSPED website. Click the link below to access:

[www.bsped.org.uk/clinical-resources/guidelines/](http://www.bsped.org.uk/clinical-resources/guidelines/)

(then select BSPED Interim Guideline for the Management of Children and Young People under the age of 18 years with Diabetic Ketoacidosis)

If clicking on the links above does not work, try copy & pasting into the address bar of your internet browser.

If you are encountering problems with the DKA Calculator, or if you have suggestions or queries please contact: [admin@dka-calculator.co.uk](mailto:admin@dka-calculator.co.uk)
